HDI's BC Success Stories

Located in the Heartland of the BC Mining Industry

Maestro and Jake

- Advancing two important discoveries
- Experienced leadership
- Strong financial backing
- Favourable gold, silver and copper markets
- Maestro is advancing through delineation drilling
- Jake provides the next major project in the pipeline

Maestro Flagship Project

102m of 2.22 g/t Au and 104 g/t Ag^{1,2,3}

- Discovery of high-grade Au-Ag lodes confirmed by an initial two-hole Phase 1 scout drilling program
- Mineralization of similar age to the Blackwater Mine (Artemis Gold), one of Canada's premier gold projects with a market capitalization exceeding C\$ 9 billion (Artemis Gold Inc. website)
- Four successful phases of delineation drilling programs completed with 21 drill holes
- **Phase 5 drilling commenced in late October 2026 to further delineate the discovery and test additional targets**
- Fully permitted, with 37 approved drill sites

Jake Next-in-Line Project

74m of 0.30% Cu, 0.12 g/t Au and 2.5 g/t Ag^{1,2,3}

- Seven-hole scout drilling program led to the discovery of a new Cu-Au-Ag porphyry system.
- Follow-up studies identified a prospective trend, leading to the 100% acquisition of a new copper-gold district in British Columbia.
- Geological characteristics comparable to the high-grade Bell Cu-Au Mine, located near Smithers (72 Mt mined at 0.46% Cu and 0.23 g/t Au; BC MINFILE 093M 001).
- Next Phase: Delineation drilling is planned to advance the discovery, following the completion of the Maestro program
- Fully permitted, with 47 approved drill sites

Drilling Confirms a Vertically Integrated Mineral System
